PROFILE

3rd-year Computing and Information Systems undergraduate at Sabaragamuwa University of Sri Lanka, with a strong interest in full-stack development. I have gained practical experience through various academic projects, which have strengthened my communication, teamwork, and problem-solving abilities. I am passionate about learning new technologies and contributing to innovative software solutions.

EDUCATION

B.Sc. (Hons) in Computing and Information Systems

Sabaragamuwa University of Sri Lanka

2024-Present

IT Certified Master

Institute of Computer Engineering Technology

2025-Present

Diploma in Cyber Security and Ethical Hacking

SITC Campus

2025

G.C.E Advanced Level - Physical Science Stream

A/Rajanganaya Tract 05 M.V

2014 - 2022

PROJECTS

Appointment Booking System — Ongoing

Individual Project | MERN Stack

- Developing a full-stack appointment booking system using MongoDB, Express.js, React.js, and Node.js (MERN).
- Developing a responsive React.js frontend using Tailwind CSS with client-side form validation.
- Designing and implementing RESTful APIs for appointment scheduling, booking, and management.
- Implemented JWT-based authentication to provide secure user access and authorization.
- Applying modular and maintainable architecture to support scalability and future feature development.
- Managing source code using Git and GitHub, including feature branches, version control, and code integration.

iFriend Contact Organizer

Individual Project | Java, Object-Oriented Programming (OOP)

- Developed a Java-based contact management system using Object-Oriented Programming (OOP) principles.
- Implemented core CRUD operations, including adding, updating, deleting, searching, and organizing contacts.
- Applied encapsulation to improve data organization, maintainability, and code structure.
- Designed reusable methods and modular components to improve code reusability and scalability.
- Applied fundamental Java OOP concepts to create a structured and maintainable application.

Fedratlas - Data Sharing Protocol System

Capstone Group Project

- Developed a secure federated data-sharing system using Go and PostgreSQL, focusing on access control, authentication, and efficient data management.

Hotel Website

Individual Project | HTML, CSS, JavaScript, Git, GitHub Pages

- Developed a responsive hotel and hospitality website featuring accommodation, dining, events, gallery, and booking-related pages.
- Implemented interactive web components using HTML, CSS, and JavaScript.
- Designed a responsive user interface with intuitive navigation and user-friendly layouts across different screen sizes.
- Applied frontend development and responsive web design principles to improve usability and accessibility.
- Managed source code using Git and GitHub and deployed the website using GitHub Pages.

TECHNICAL SKILLS

- Programming languages — JavaScript, Java, C, PHP, HTML
- Frameworks & Libraries — CSS, Tailwind CSS, React
- Databases — MySQL, PostgreSQL
- Project Management Tools - Trello
- Technologies and Tools — Figma, Canva, VS Code , Git, GitHub, Postman

SOFT SKILLS

Team Working Skills
Problem-Solving Skills
Leadership

Time Management
Critical Thinking
Creativity

Communication Skills
Self-Learning
Emotional Intelligence

ACHIEVEMENTS

- First Runner Up - JXG D'Hack-Department of Information Technology,University of Sri Jayewardenepura
 - First Runner Up - PearlHack 3.0 - IEEE Student Branch, Sabaragamuwa University of Sri Lanka
 - Semi Finalist - Hack Like A Girl - SLASSCOM
-

VOLUNTERING EXPERIENCE

University Ambassador — IEEE WIE Student Branch Affinity Group
University of Moratuwa

Graphic Designer — Society of Computer Sciences
Sabaragamuwa University of Sri Lanka

Design Team — IEEE Day 2026
Sabaragamuwa University of Sri Lanka

CERTIFICATIONS

Introduction to Microsoft 365 Copilot
Microsoft Learn | June 2026
Credential 

Java Programming — Certificate of Completion
Great Learning Academy | December 2024
Credential: Great Learning Certificate
